Take a look inside these books [here](#).

## Developing a Love of Reading at Home

### Join a library

Did you know it's free for children to join a local library? Why not sign up to Bishopsworth Library? They run a variety of free events across the year and help children find and choose the right books for them.

### Find the right genre

The theme of this year's World Book Day is 'you are a reader', reflecting the idea that every child will enjoy reading something... they just may not have found it yet! Try graphic novels, comics or magazines. It's all reading!

### Use audiobooks

If your child is a reluctant reader, audiobooks are a great place to start. The World Book Day website has a fantastic range of free audiobooks to try before 31<sup>st</sup> March. Access them [here](#).

### Mix it up

Make reading at home as varied as possible. Read in different locations in your house, vary the speed and tempo of your reading and most of all, have fun. Add props, use sound effects and vary your volume. It all builds interest.

'Reading is the gateway for children that makes all other learning possible.'
